

How are we preparing to safely welcome students back?

Our first day of school will be August 24!

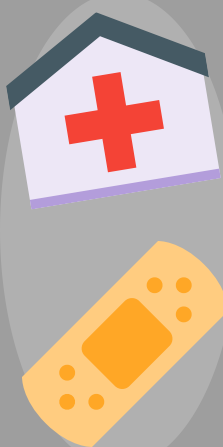

Our small class sizes make it easy for students and staff to socially distance. It's also easy to socially distance desks in our classrooms!

We are scrubbing and cleaning every corner of our building to make sure everything is clean and sanitized for the first day. We also have daily sanitations scheduled!

We are so excited to have new technology this year so that every student will have their own device for school use!

We are introducing a new role this year of *Coordinator of Health Safety* to ensure all of our students and staff are healthy and ready to learn each day.

Not ready to send your student for In-person class? *That's okay!* We have options for remote learning available!

Scan our QR code to head to our **online application** process!
